CHINA NATIONAL CHEMICAL ENGINEERING CO., LTD.

Who we are

We have evolved a comprehensive corporate core philosophy to help us achieve our goal. This involves optimization of all resources, prioritizing sustainability through clean technologies, conforming to all relevant industrial benchmarks, inspiring collective responsibility, ensuring transparency at all activity levels, maintaining a hazard-free work environment and, above all, contributing to a better future for everyone directly or indirectly associated with our organization.

About us

If building solid structures is our business, building enduring bonds is our essence. We focus on harmonizing competence and commitment to bring the best out of every project that we undertake and always strive to live up to our belief that every business contract is a gateway to a relationship for life. Being young has a distinctive advantage of being agile and adaptable. Our people come from divergent professional backgrounds, enabled with long years of experience in the Gulf and expertise in serving the specific engineering and construction needs of the region.

Silverwood Engineering & Construction engages in a wide spectrum of activities covering turnkey construction of buildings and super structures, infrastructure development, MEP works as well as specific E&C aspects of sectors such as oil & gas, power, water and urban utilities. We offer innovative solutions to client needs maintaining high standards of quality, consistency, professionalism and sustainability. From conceptualization to completion, Silverwood ensures total conformance to customer specifications and timelines and our project management expertise guarantees world class quality with cost effectiveness.

Vision

Our sights are set high and we know how to reach the stars. We have realized our strengths and capabilities for becoming the client's most preferred partner chosen for designing eminence and delivering excellence, and envision ourselves as growing into the second-to-none player in the engineering and construction industry in the region.

Mission

We pursue our business vision with passion and the will to excel. To this end, we have defined our mission as; Ensuring the client the highest quality of service, promptly on schedule and in conformance to requirements and budgetary specifications. Establishing a proactive partnership with the client to provide prompt and perfect solutions for their needs and guarantee value for money. Enabling our own growth and success as a team through innovative spirit, strategic thinking, technical and managerial competence and an uncompromising passion for excellence.

“Global vision regional insight”

Health and Safety Policy

- ▶ Comply with the requirements of the Health and Safety Management System in line with Environmental Agency Abu Dhabi (EAD) Health and Safety management system and to continually improve its effectiveness through regular self-assessment and performance measurement.
- ▶ Undertake activities without compromising or causing conflict with other EHS principles and objectives.
- ▶ Integrate health and safety considerations into decisions to ensure that the measures adopted are cost effective and complying with the requirements of ISO 9001:2008, ISO 14001:2004 and OHSAS 18001:2007 progressively for continual improvement of efficiency and effectiveness.
- ▶ Improve personal skills and competencies of our employees on health, safety and environment through training and development programs to ensure that the health, diversity and productivity of the environment is maintained or enhanced for the benefit of future generations in order to achieve sustainable development.
- ▶ Provide a safe and healthy working environment by identifying hazards, assessing the risk and determining controls in areas of work.
- ▶ Establish, Implement, communicate and continually measure the achievement of our approved quality, health, safety and environmental objectives & targets of our stated policy.
- ▶ Comply with all current legislative and regulatory requirements applicable on Kelvin Gulf's scope of work.

Environmental Policy

- ▶ Provide the management with the necessary structure and resources, identify the control and monitor all company operations in order to minimize the impact of its activities on the environment.
- ▶ Hold all levels of management, supervision and line staff responsible for sound environmental management and development of positive attitudes in themselves and those they manage.
- ▶ Comply in full with all applicable environmental legislation.
- ▶ Establish and periodically review measurable objectives targets and associated management programs.
- ▶ Develop and maintain emergency procedures in cooperation, wherever necessary, with other operating companies, local authorities and emergency services.
- ▶ Good environmental performance is integral to the business and therefore it will be treated as a primary business objective.

Together for
SUSTAINABILITY

Our services

► Construction of Temporary Facilities

SILVERWOOD is a major player in construction of temporary facilities such as site offices, labor camps, mosques, sports facilities etc.

► General Civil Works

Our activities are mainly infrastructure projects, Labour Accommodations, Industrial ware house, Cold storages, including Civil Construction are Residential & Commercial Buildings, Investment Villas, ,Warehouses and Luxury Private Villas.

► Electro – Mechanical

Electrical, HAVC, Plumbing, Fire Fighting, Central Gas system, Hydraulic and Pneumatic installation, Repair and Maintenance projects in villa's, hospitals, hotels, airport ,industrial sheds, commercial complex/shopping malls, multistory buildings.

► Earth Work

SILVERWOOD provides all types of earthworks which include roads, land grading to reconfigure the topography of a site, or to stabilize slopes, surface or sub surface earthwork, site development, etc.

► Steel Structures

SILVERWOOD provides engineering, design, fabrication and erection of steel structures from single to multi span structures and we have a track record of completing the project ahead of the time.

► Engineering and Design

Our engineering and design expertise extends across construction, refurbishment and maintenance of overhead lines for power utilities ranging from LV to 400kV networks. We are ready to meet the most challenging client needs of overhead line refurbishment and construction from LV Ariel Bundled Conductor (ABC) replacement through 33kV (38kV), 132kV (110kV) to 275kV lines, and at higher voltage levels.

► Pipeline Installations

DI and HDPE pipelines installation & maintenance services for potable water, irrigation, firefighting, storm water & sewer networks of pipe size ranging from 20 mm to 1600 mm. Our team is trained and expetised in all kinds of pipeline works including Butt fusion welding, Electro fusion welding, Socket welding & Extrusion welding etc.

► Landscaping

With a multitalented team of experts SILVERWOOD Landscaping is capable of bringing your dream garden to reality including the construction of pergola, gazebo, decks, gardening, swimming pools, Irrigation systems, outdoor and garden lighting, tile work etc.

Our services

► Over Head Transmission

Silverwood has the expertise in the construction, refurbishment and maintenance of overhead lines for power utilities ranging from LV to 400kV networks. We undertake overhead line refurbishment and construction through 33kV, 110kV, 132kV to 275kV lines.

► HV Sub Stations

Our engineers and electricians are trained in the construction and refurbishment of substations from 11kV to 400kV. Our employees are skilled and highly experienced in the construction and maintenance of networks from LV to 400kV. We provide project management resources for installation, commissioning and technical support.

► Street Lighting

Installation and maintenance of lamp, ballast and photocell; installation of a light pole and/or luminary arms; complete fixture replacement, including repair of the conduit, junction boxes, cable works and feeder pillar maintenance, installation and repair of concrete foundations etc.

► Testing & Commissioning

Electrical testing and commissioning LV and HV cable fault location and repair Fault level and protection grading studies Site health and safety management 24/7 Emergency response agreements.

► Design & Authority Approvals

We, at SILVERWOOD, deliver fully integrated consultancy services under one roof from inception thru handing over of the project making cultural/traditional and sustainable contributions to the society while meeting/exceeding the expectations of the Clients/end users through our multidisciplinary expert team of architects, interior designers, engineers, specialist professional associates, contracts specialists, quantity surveyors, PMC specialists etc.

► Procurement

Silver wood supplies a wide range of high, medium and low voltage equipment to meet customer-specific requirements for power generation, transmission and distribution. When procuring equipment and materials, Kelvin Gulf will select suitable suppliers of the item to be purchased from among registered ADDC /ADCO group suppliers.

► Project Management / Post Contract Services

Facility Management of public & private Pumping stations, Treatment Plants, Diesel Power Plants etc. Routine, preventive and Responsive Maintenance for Buildings, Pumping stations, Treatment Plants, Power Plants and sub-stations. Maintenance of Transmission & Distribution Networks, Water and Wastewater facilities.

Utilities Design Services

Silver Woods Engineering & Construction's expertise extends to all types of utilities.

Our main focus - Efficient and Sustainable Design

Organizational Hierarchy

PROJECT MANAGEMENT

Major Projects Completed

中国石油天然气集团公司
CHINA NATIONAL PETROLEUM CORPORATION

24 km water network & pumping station EPC works for CPEC Habshan camp, under ADNOC Bab Integrated Facilities Project

Design, ADDC approval, Supply and Installation of 24.5 kilometre DN 315mm HDP pipeline as per ADDC regulations. Water demand approval from ADDC for 316,800 Imperial Gallon drinking water per day to China Petroleum Engineering and Construction Corporation camp.

Water network testing & commissioning for 24.5 kilo meter DN 315mm HDP pipeline to China Petroleum Engineering and Construction Corporation Camp. Safe and secure water to drink for 7,000 persons.

SAIPEM

Etihad Rail, Shah-Habshan Ruwais Railway Crossings

33kV and 11kV Overhead lines relocation, Design, NOC,s and authorities approvals.

Etihad Rail's 1,200 km network from the border of Saudi Arabia to the border of Oman. The network will run from Ghuweifat to Abu Dhabi, Dubai and the Northern Emirates with major connecting points in between.

Etihad Rail is building an extensive national network with freight terminals, distribution centres and depots located close to major transport hubs, trade centres, warehouses, and storage facilities across the UAE, including Mussafah, ICAD, Khalifa Port, KIZAD, Jebal Ali Free Zone, Dubai South, Port of Fujairah and Saqr Port. The Etihad Rail network will also connect with the GCC railway system, creating a region-wide network.

SIEMENS

Shuweihat S3 Power Plant 1600 Mw – ADWEA (Abu Dhabi Water & Electricity)

The S3 power plant at Shuweihat, Ruwais, is the ninth project in ADWEA's programme of Public Private Partnership developments. To be run by Shuweihat Asia Power Company [SAPCO] and producing 1600MW of power, it will satisfy upto 15% of the demand for Abu Dhabi Emirate.

Our sister company German Gulf Engineering Consultants (GGEC) has carried out design and approval for 40 buildings and enabling works for the site and are proud to be associated with this high-efficiency combined cycle power plant and Siemens Environmental portfolio.

Logistics Park for Abu Dhabi Port KIZAD 105 pre-built warehouses

KIZAD is a world class industrial complex located in tandem with one of the world's most advanced ports and an integral part of the Abu Dhabi Economic Vision 2030.

With a massive 417 km² of prime industrial land to be developed it provides a wealth of opportunity on a global scale. Silver woods is one of the first consultants engaged in developing the first stage of the project with pre-built warehouses in two packages with a show warehouse. Silver woods prepared further designs for projects in KIZAD Zone A – manufacturing facilities with warehouse and offices completed in the second half of 2013.

Major Projects Completed

Tradex Factory And Showroom (Mussafah)

A manufacturing facility for scaffolding, showroom and offices for Tradex LLC serving the Construction /Oil Sector and Event Industry in the Middle East.

Being constructed by Profiles RH the project covers 3000 m.sq in all and was completed in 2013.

SAIPEM

Shah Gas Development Project, Abu Dhabi

The Abu Dhabi Gas Development Company (Al Hosn Gas) developed the Shah Gas field, located 210 km south west of Abu Dhabi city

Being one of the largest in the Middle East, to deliver 500 million cubic feet per day of clean gas by late 2014 creating sustainable wealth for citizens of UAE far into the future. Silver woods has provided the designs and approvals for two projects so far in this development, being 24km of 33kV Overhead Power Lines and also civil works and street lighting to facilitate the transport of gas storage vessels to the site.

SAIPEM

Street Lighting 14 M poles (E30-Culvert, Al Ain)

Design, Authority approvals, Supervision, Testing & Commissioning as per ADDC to install 14m high poles with 1x1000 w sodium vapor lamp on both sides of the highway, resulting in four rows of lights placed at 40m interval.

- ▶ dismantling of two existing 30m high mast light poles complete with foundation
- ▶ Installation of new temporary light poles low mast with all necessary related works
- ▶ Civil works related to temporary asphalt and gatch road

Bridgeway Warehouse & Office Buildings, Abu Dhabi

Total 1800 sq.m development including 500 sq.m office space and 800 sq.m warehouse

A new 1800 m.sq development including 500 m.sq offices on the first floor with five shop units below and an 800 m.sq warehouse in Mussafah where Silver Woods provided the design and obtained all approvals. Project is now under construction.

Software Proficiency

Landmark Success

Our achievements are concrete examples of creative capabilities and technical expertise.

Every one of these prestige's projects reflect the trust and confidence of premier clients and an emphatic statement of our involvement with the nation's progress.
